DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Gabriel et al (5,954,013). Gabriel et al show a ventilated shelving storage system for cages containing laboratory animals comprising one or more horizontal wall guides 30; one or more shelf ventilation units 44, 48; one or more ventilated shelves 23 connected in series to the ventilation units 44, 48 and each of the ventilation units 44, 48 with the related ventilation shelving 23 being able to run horizontally via connectors 40, 42 along the horizontal guides 30, see fig. 3.

Allowable Subject Matter

Claims 2-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Included for further reference are: Takasugi (4,738,117), Haasis (5,277,039), Miyazaki et al (6,059,196), Austin et al (6,553,939), Rudick (6,581,389) and Bonner et al (810,833).
